110.9

Manual Section Title

Antigens Prepared for Sublingual Administration

Version Number

1

Effective Date of this Version

11/17/1996

Description Information

Benefit Category

Antigens

Please Note: This may not be an exhaustive list of all applicable Medicare benefit categories for this item or service.

Indications and Limitations of Coverage

For antigens provided to patients on or after November 17, 1996, Medicare does not cover such antigens if they are to be administered sublingually, i.e., by placing drops under the patient's tongue. This kind of allergy therapy has not been proven to be safe and effective. Antigens are covered only if they are administered by injection.

Transmittal Information

Transmittal Number

90

Revision History

10/1996 - Provided noncoverage policy. Effective date 11/17/1996. (TN 90)
