Implementation Date

08/01/1979

Description Information

Benefit Category

Diagnostic Tests (other)

Please Note: This may not be an exhaustive list of all applicable Medicare benefit categories for this item or service.

Indications and Limitations of Coverage

Cardiac catheterization performed in a hospital setting for either inpatients or outpatients is a covered service. The procedure may also be covered when performed in a freestanding clinic when the carrier, in consultation with the appropriate Quality Improvement Organization (QIO), determines that the procedure can be performed safely in all respects in the particular facility. Prior to approving Medicare payment for cardiac catheterizations performed in freestanding clinics, carriers must request QIO review of the clinic.

Transmittal Information

Transmittal Number

8

Revision History

08/1986 - Replaced PSRO with PRO and emphasized that for procedure to be covered in a freestanding facility, carriers must request PRO review. Effective date NA. (TN 8)

National Coverage Analyses (NCAs)

This NCD has been or is currently being reviewed under the National Coverage Determination process. The following are existing associations with NCAs, from the National Coverage Analyses database.
