Item/Service Description

A. General

The fundamental concepts of the Benson-Henry Institute Cardiac Wellness Program were developed by Herbert Benson, MD, over 40 years ago. Benson states that “in the middle 1960s, when I noticed that people’s blood pressures were higher during visits to my office than at other times and wondered whether stress wasn’t causing that rise. Stress wasn’t on the radar then, so I began investigating a connection between stress and hypertension.” (<http://www.ideafit.com/fitness-library/mind-body-medicine-balanced-approach>) The Cardiac Wellness Program is a multi-component intervention program that includes supervised exercise, behavioral interventions, and counseling, and is designed to reduce cardiovascular risk and improve health outcomes.
