difference in the size of the wheelchair from the standard model is not considered a deluxe feature.

A physician's certification or prescription that a special size is needed is not required where you can determine from the information in file or other sources that a specially sized wheelchair (rather than a standard one) is needed to accommodate the wheelchair to the place of use or the physical size of the patient.

To determine the reasonable charge in these cases, use the criteria set out in the Medicare Claims Processing Manual, Chapters 12 and 23, as necessary.

Cross Reference
